

# GoldStar Oil Seal #330

## Oil Seal #330

Ready to use latex-based primer designed to prime existing oil and grease spots before asphalt pavement sealcoating. Oil Seal #330 ensures adherence between existing asphalt and the applied sealcoat while preventing oil, gas, and other petroleum-based substances from migrating through newly sealed asphalt pavement.

Each gallon of GoldStar Oil Seal #330 is manufactured at Goldstar Asphalt Products manufacturing facility in Perris, CA. Goldstar's facility has the latest technology, ensuring consistency in every Oil Seal #330 batch.

100-200 Square foot per gallon

**Use GSA Oil Seal on oil stains before sealcoating**

# GoldStar Oil Seal

## #330

### Oil Seal #330

**DESCRIPTION:** Ready to use latex-based primer designed to prime existing oil and grease spots before asphalt pavement sealcoating. GSA Oil Seal #330 ensures adherence between existing asphalt and applied sealcoat while preventing oil, gas, and other petroleum-based substances from migrating through newly sealcoated asphalt pavement.

**SURFACE PREPARATION:** Surface areas must be free from dirt and dust before treatment. Scrape excessive build-up of oil, grease, or any other chemical stain spots. Lightly burn off excessive build-up.

**APPLICATION:** Mix well before using. (RTU) ready to use on heavy oil spots, grease, and other stains. GSA Oil Stain #330 can be applied with a suitable spray machine, push broom, brush, or roller.

**COVERAGE:** 100-200 square feet per gallon.

**CLEAN UP:** Wash tools in water. Use a suitable paint thinner if the material has dried.

**STORAGE:** Keep from freezing. Do not store in direct sunlight or where temperatures exceed 100F. The container should be closed when not in use. Keep out of the reach of children.

**PACKAGING:** Available in 5-gallon buckets and 55-gallon drums.

**COLOR:** Black
